

Team Left Bankrupt by Big Bad Bankers. Last Fri. the previously undefeated chess team received a thorough clobbering at the hands of the strong team from the First National Bank. The hero of the day was good old Chuck Bradley who drew his game thus preventing a complete shutout. From the team point of view the only other consolation we received were the remarks by several of our polite opponents that the games were very close and hard won. From the club point of view, however, the event was a great success since every member who showed up to play participated in the match. Below are the (sob!) results.

April Fool Meeting a Success. The last meeting proved to be interesting and at times very stimulating for the members who tried their luck at chop suey chess. Bill Vondrak and Siegfried Moysich headed up teams named the Zombies and the Redheads, respectively. In a roulette chess match the redheads won, $2\frac{1}{2}$ - $1\frac{1}{2}$. The zombies came back to win at putback chess by a score of 2-1. The two team captains then faced each other (or rather faced opposite directions) in a most fascinating game of Kriegspiel. Siegfried won in a wild and wooly game in which both players showed themselves to be shrewd "guestimators".

Ladder Climbers for March. During last month's activities the ladder climbers and their respective point increases were as follows: Vondrak..182, Carter..109, Trachsler..105, and Herschberger..104.

Membership. The officers of the chess club wish to welcome Cal Kasch into our circle. Cal is a foreman in the Black & White Section of Dept. K. Our club membership has been encouraging so far. This year we picked up 9 new members, lost one who left the company, and placed 4 on the inactive list.

Constitution Committee. Del Ziegler has volunteered to help organize a club constitution and has been appointed the chairman of the committee. He will be ably assisted by Tom Holder.

Next Meeting April 15th. No special events are scheduled.
