A WORD FROM THE EDITOR

Okay, so we got the first bulletin off with only minor glitches. Some of you received issues which had this column twice, but no Tony Jasaitis column. I will reprint that column this month. Also, we will have the remainder of the treasurer's report, which I omitted last month.

We have several issues for discussion, let us begin here.

Should we allow family members to play for teams?

How should the free agent system work?

Playoff format changes?

The need for copying facilities for the bulletin.

Remember, this is an editorial, and does not reflect the opinion of the CICL or its officers, other than the editor.

Should we allow family members to play on CICL company teams? It is said that such a rule change would have allowed Amoco to stay in the league. A large number of teams are short a very small number of players. I believe IMMEDIATE family members should be allowed limited playing eligibility. Parents, children, spouses, and siblings of employees. By limited, perhaps a rule should state that a majority of a lineup for each match must be company players, id est, 4 out of 6 must be employees, or alumni. That makes a maximum of two family members per match. The family members would only be eligible to play on the employees team, and in the event of severance of the employee, the family member could apply for alumni status. Alumni teams would work the same way, at most two alumni family members per team. This does not sound complicated to me, and if asked, I could keep stats on who is employee, alumnus, or family. Not a problem. If this causes teams to not withdraw, or old teams to rejoin, I'm all for it. After all, in some other company activities, family members are allowed to play on the teams as if they were employees.

How should the 'free agent' system work? Well, Tony Jasaitis found a workable solution that was agreed upon. But for further discussion, perhaps free agency can be limited to the same majority employee rule as spoken above for the family members idea. You must have four actual employee/alumni players. After this, you can have as many as two family members or free agents, or one of each. But perhaps in order to stay in keeping with the idea of the INDUSTRIAL portion of the Chicago Chess League, you MUST have a majority employee/alumni players.

As for a possible change in tier 1, the only problem I can see is that you have 4 teams chosen from 18, and four teams chosen from 10. That alone is an imbalance. Perhaps removing one team from the 10 and giving it to the 18 would be more of a balance, would be more fitting for tier 1, based on numbers alone.

The final issue for discussion is the need for copying facilities for our bulletin. The task of producing the bulletin that I had looked forward to all summer became a nightmare when I lost the availability of our copying facilities. This is the sole reason the first, and this, issue is late. After a bit of consulting with President Jim Hodina, and Tony Jasaitis, a temporary solution was found on two fronts. First, former bulletin editor Marty Franek came forward and offered to copy the bulletin. Then, later, new (continued on the following page...)

WORD FROM THE EDITOR (Continued from preceding page.)

RT team captain Dan Bargerstock reportedly also offered the services of his company's equipment, along the lines that Tony Jasaitis had arranged for Jim when he produced the bulletin. I had already sent the materials to Marty when the information about CRT was given by Tony. This saves the day, as paying the high rates at a professional copy place could conceivably cost as much as the postage, effectively doubling the cost of our modest bulletin, and putting the league in the red by 600+ dollars a year.

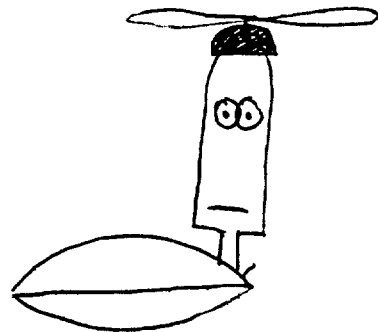

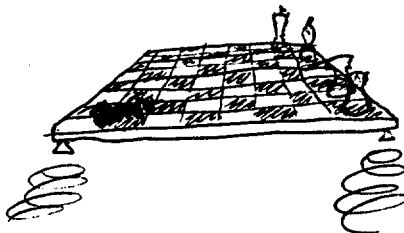

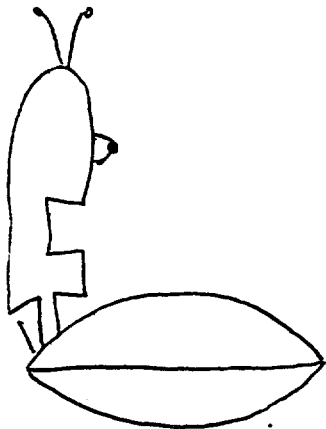

This issue has been addressed in the past, and we still have no permanent solution. If there are any other CICLers out there who have access to a machine which can copy about 45 bulletins averaging 3 double sided pages each, eight to ten times a year, please come forward! Perhaps we can have a large number of volunteers so we might share the duties during the course of a year, so no one person or company has to do it more than once or twice a season. I travel up and down the extent of the metro area getting to work and back, so perhaps someone's facility is on my way to work. Then I can actually do the copying, all you have to do is supply the machine!

Thanks to Marty Franek, who will be copying this bulletin, and to Dan Bargerstock, who has offered the same arrangement we used last year.

I am tuned for more annotated games. We have no diagrams this week as I have temporarily lost the use of the PC I was using to produce them. Ah, yes, my work.

All opinions on anything are welcome. NEXT DEADLINE DEC. 25!! The next bulletin will be targeted for January 1, 1994. Hereafter, I may attempt again the pattern of one bulletin on the first of every month.

YOU HAD NEVER BEATEN ME BEFORE, AND NOW YOU JUST WON FOUR GAMES IN A ROW. I DEMAND YOU TAKE A STEROIDS TEST!

PRESIDENT'S LETTER

Now that the season is in full swing I thought that I would give everyone a rundown on recent developments in the CICL. Foremost, I would like to welcome a new team to the league. **Unilever** has joined the CICL and will be in the Near West Division, playing an exhibition schedule. The exhibition schedule will give Unilever an opportunity to ease into the league, especially since several players do not have much experience in tournament chess. The captain is Wayne Ellice. Unilever is located on 4099 West 71st Street in Chicago.

Even with the addition of Unilever, the recruitment of new teams continues. As an outreach to the greater chess playing community, the CICL is contacting chess clubs around the Chicagoland area to set up exhibition matches. Already, I have contacted the Oak Park/Forest Park Chess Club to arrange a match with AT&T and/or Motorola. Also, Tony Jasaitis, Publicity Chairman, has contacted the Fox Valley Chess Club to set up a match with a Far West All-Star team. I think there is great potential here. It **directly** exposes the CICL to other chess players and gives the CICL an opportunity to show them just how strong our players we are! The chess clubs, likewise, have an opportunity to pick up additional members from our CICL members. A Win-Win situation. If anyone else has a suggestion for ways the CICL can directly interact with the chess community, let me know. If anyone knows of a club that would like to schedule a match with the CICL let me know that too and Tony or I will pursue it.

In an effort to assist our existing teams whose number of team members is dwindling, the CICL recently passed a motion to generate a "Player Pool." The details of the proposal was sent to each captain under a separate letter as well as the last CICL Bulletin. To recap, any team with players seeking a greater opportunity to play may now choose to play for another CICL team. This was referred to as "Free-Agency" in our Fall CICL meeting. Two main conditions apply. First, the team captain must approve of his player switching to another team. Second, a person can only play for one team per year. Therefore after switching, he could not come back to his original team until the next season. This may help fill two needs at once. First, teams with six (or fewer) players can maintain their status in the CICL. Second, teams with a large roster can give some of their lower rated players a greater opportunity to play. When developing this proposal, the interest seemed high. The reality, however, has been disappointing. Team loyalty reigns over the desire to play. It is not too late to enter the "Player Pool" as teams such as Grolier need players. Although alumni teams do not qualify under this proposal, they too need players. Exemplars in the North Division and Alumni West, especially. The CICL needs your help in finding alumni to play and keep the alumni teams going strong. Despite the success or failure of this effort, I am glad we tried.

Lastly, I would like to propose my recommendation for the Second Tier Playoffs. It was decided at the Fall CICL Meeting that the President would decide the format for the Second Tier Playoffs by the end of 1993. After seeking feedback from many of you, I propose to go to a Team-Swiss Tournament. It will be on the same day as the Tier One Playoffs. However, all rounds will be played on that day for the Second Tier; round one will not be played prior to the tournament. Time controls will most likely be shorter, but will be determined by the number of teams entered and thus the number of rounds required to determine a winner. I will still solicit feedback until the end of the year and if I receive significant opposition to this, I will propose an alternative.

BANQUET NEWS

by Tony Jasaitis, Banquet Chairman

At our fall meeting, President Jim Hodina reported that his search for alternates to Harvey's Prime Rib in Westmont was unsuccessful; Harvey's clearly had the best price and the best fit for our needs. Further, the membership was satisfied with the location.

As requested at the meeting, I have looked into the possibility of having our banquet on a Saturday evening. The good news is that the price per person would be the same. The bad news is that due to large banquet demand on Saturday evenings, our minimum attendance would have to be 150, which is more than double our normal attendance. Since there is no evidence that we can produce such a large turnout for a banquet, it appears that we will have to scrap the Saturday evening idea.

An alternative is Saturday afternoon, but we would have to clear out by 4pm for the evening rush. Since our banquet (including speed tournament) typically takes 5 hours, we would have to either serve food at 11am, or have the speed tournament before the banquet, or reevaluate how we want to conduct the banquet. Progress at the banquet would become more time-critical than now.

If you think that having the banquet on a Saturday afternoon would increase attendance from your team, call me at 708-448-4967 (hone, message machine is always enabled). If the response is strong, I will look into this possibility more deeply. Otherwise, expect the banquet to take place on Friday evening, June 10, 1994.

PLAYOFF BOOK NEWS

By Tony Jasaitis, Coordinator

The eagerly awaited 1992-3 Season Playoff Tournament Book is ready!! Dennis Leong, our Alumnus and League Librarian, has completed the monumental task of inputting into his computer the 131 playoff games that were submitted for publication.

One printed copy of the Playoff Book will be distributed to everyone who is entitled to receive a bulletin. Team dues and individual subscriptions must be paid in full before the Playoff Book will be sent. Our goal is to have it ready to mail with the second bulletin of the season. In addition, Dennis has offered to make copies available on diskette (in various database formats) to those who send him a formatted diskette (IBM compatible, 5.25 or 3.5 inch, minimum 320K) and self-addressed, stamped materials for return mailing. The normal materials would be a diskette mailer with sufficient postage. A reusable mailer containing a self-addressed mailing label and proper postage enclosed will be acceptable. Also, please specify which of the below formats you desire.

Dennis has following data formats available:

- a) ChessBase 3.0 or 4.0
- b) NICBase
- c) Chess Assistant 1.2x
- d) ASCII text (same as printed copy)
- e) a ChessBase demo version that lets you browse through portions of the book graphically without owning ChessBase (legal, and VERY nice!! - all you need is an IBM-compatible computer).

Thanks to all of you who cooperated so dramatically (91% turn-in rate!) and allowed your brilliancies, horrible blunders and pet lines to get published for the enjoyment of all. Corrections to the games are welcome. The games have already been scanned for legality and cross-checked with the opponent's score sheet (if submitted). Despite the high turn-in, we would like to see 100%. Updates and additions to the book will be published at a later time.

If you want your playoff game to be considered for an award, you should submit it to be published in the bulletin, preferably annotated. Appearance in the Playoff Book alone does not constitute eligibility. As usual, playoff games published in the first two bulletins will be eligible for this season's awards.

Dennis Leong's address is: 5910 N. Washtenaw, Chicago, IL 60659.

The eagerly awaited 1992-3 Season Playoff Tournament Book is ready!! Dennis Leong, our Alumnus and League Librarian, has completed the monumental task of inputting into his computer the 130 playoff games that were submitted for publication. Many thanks, Dennis! Also thanks to Russ Rzeszutko, who took the initiative to provide the ratings of the players (however, ratings under 1600 are not listed because the database program does not accept lower ratings because it is meant for FIDE ratings). Thanks also to Reuben Reyes and his daughter for designing the playoff book cover.

One printed copy of the Playoff Book will be distributed to all who are entitled to receive our bulletin (i.e., teams that have paid their dues, or individuals with paid subscriptions, or current league officers). YEAR-END TREASURER'S REPORT FOR THE 1992-1993 SEASON

Contents:

1. Cash Receipts and Disbursements for 1992-1993
Reconciliation of Change in Cash with Accrual Basis Loss for the Season
2. Schedules of Revenue/Cost Relationships for 1992-93 Season
3. Budget Proposal for 1993-94 Season
4. Dues and Other Charges for the 1993-1994 Season

Please note the following:

- * Although there was a decrease in cash of \$90.23 during 1992-93, only \$6.60 of that amount is "loss" for the 1992-93 season. (See report on next page.)
- * I have proposed an increase in regular season dues from \$65.00 to \$70.00. Although last year the cost of a hotel playoff site was generously paid for by U.O.P., there is a real possibility that the CICL may need to pay for such a cost (\$200 or more) in upcoming seasons. Furthermore, there is uncertainty as to whether we can continue to publish the bulletin at a cost of just \$0.01 per page.
- * The unusual expenditure of \$75.00 this past season towards two Dan Kumro memorial funds is not likely to be repeated very often. Rationale for such payment was based on several factors:
 - Longstanding involvement in and service to the CICL
 - Triple Centurion Status
 - Active participation in and service to the CICL at the time of his death
 - Receipt of the Ron Dargas award
- * One team paid dues and the specified \$10.00 penalty beyond December 31, 1992. According to league policy, this team (Franklin-Watts) must be re-approved for participation in league play this season.

Respectfully Submitted,

Wesley K. Underwood
CICL Treasurer

Cash Receipts and Disbursements for 1992-1993:

SEARS TAKES THE LEAD IN NORTH

Ruben Reyes, captain of Sears and the North Division Chairman, has modestly attributed the victory by Sears over League Champion Motorola as being the result of the latter losing two key players. This writer does not buy that. As of this writing, Sears has also defeated UOP. That is the 1992, and 1993 League Champions, back to back. On paper, Sears is quite an ordinary team in the North Division. Many predicted that Sears would be fortunate to score .500 after moving from the larger East Division before the 1993 season. But this writer submits that Sears has the advantage of capable and charismatic leadership, under Ruben Reyes. The players, led by Ruben, play together as a team in a sport that some say teamwork has no place. This writer submits that Sears is proof positive that chess is a sport that requires teamwork and leadership.

ARGONNE 'KNIGHTS DOMINATE NEAR WEST DIVISION?!

Of course they do. We can see by the divisional top ten rating report that the Knights have seven of the top ten players in their division. What this means is that seventh board of the Knights is higher rated than the first board of two other teams in the division. Arguments were made to reduce the number of playoff spots in the west divisions, based on their numbers being few and the teams being weak. However, it is clear to all onlookers that the Knights would be contenders for first in any division.

BANQUET TO BE HELD JUNE 10 (Tony Jasaitis, Banquet Chairman)

In the first bulletin, Tony Jasaitis raised the possibility of having the annual banquet on a Saturday morning or afternoon, as an alternative to a Friday night. No support for the idea has surfaced. Therefore, it was announced that the banquet will be on Friday, June 10, 1994.

CHESS DATABASE NOTICE (Tony Jasaitis)

Dennis Leong, the League Librarian, who made the playoff book possible, is offering CICL members access to his massive chess database which includes hundreds of thousands of games, all public domain. This should be of interest to those with IBM-compatible personal computers with Chessbase, NICBase, or Chess Assistant.

Those interested should send:

- 1) Either a $\frac{1}{4}$ " QIC Tape, or a 2120 Tape Cartridge.
- 2) Specify the desired database format.
- 3) \$10 out of which will come postage and handling.

Dennis will also donate a portion to the CICL. This activity is not affiliated with the CICL.

RATINGS CHAIRMAN'S REPORT

Submitting Match Results

BOTH team captains are expected to submit a copy of the match results directly to me. This is to ensure that at least one copy of the results gets to me in a timely fashion. In addition, the home team captain should send a copy of the match results to the Division Chairman to keep him informed.

Captains should indicate on the match results sheet whether the match has been played out of order as defined by the division schedule. Matches need to be rated in the order played in order to avoid ratings distortions. If I receive a result for, say, Round 4 in a division's schedule, and either team has unreported results for Rounds 1 through 3, I will not rate that match until the earlier match results have been received and rated, unless I am advised that the earlier matches have not yet been played.

Faxing results: I would prefer to minimize the fax traffic; please use fax to transmit results only during the last week before the bulletin submission deadline, as announced by the bulletin editor in the preceding issue.

USCF Ratings

New players entering the CICL with existing USCF ratings, whether they are currently active in the USCF or not, may begin CICL competition with their present USCF rating. Any player listed as unrated in the CICL ratings list in this issue of the bulletin who is a USCF member with a published rating should contact me to have their USCF rating entered into the CICL rating system.

Team captains should indicate on the results sheet the ratings status of all new players. If the player has a USCF rating, the rating (or an approximation if not know for sure) should be entered on the match results sheet for that player. Similarly, if the player has never had a rating, enter "new - UNR" by the player's name. Also, if the player has a CICL rating but last played for a different team or has not played in the CICL for ten years or longer, indicate that fact by the player's name. This will help in locating the correct rating for that player.

GAMES

Howard Klinefelter (1440) - Steve Decman (1684)

25 August 1993

Summer Tournament

1. P-Q4 N-KB3 2. P-K3 P-Q4?! (This move is given a ?! primarily because it gives White exactly what he wanted when he played e3. If a man plays e3, you know he probably intends f4, too. That being the case, one should, 'defeat' his aim with the plan of ...d6 and Kingside fianchetto, followed by ...e5. There is no point in going into the type of game that your opponent obviously wants.)
 3. B-Q3 ... (Ah, yes. The typical aggressive bishop of the Colle and Stonewall positions, fighting for e4, and, h7!) 3. ... P-K3 (Black is playing quietly, perhaps he likes the closed nature of the game.) 4. N-Q2 QN-Q2 5. P-KB4 ... (There it is, no camouflage.)
 5. ... B-K2 6. KN-B3 O-O 7. N-K5 ... (White is simply getting his way. Black needs to create some play to avoid being strangled.)
 7. ... P-B4 8. P-B3 N-K1 9. O-O P-KN3 (That Bd3 finally gets to Black.) 10. Q-N4 ... (Very aggressive, possibly rushed. It might be prudent to play for a g4 push. White must be careful not to allow stuff like ...f5 followed by ...Nf6 and ... Ne4 to spoil the party.)
 10. ... N-N2 11. R-B3 N-B3 12. Q-R3 N-B4? (Allows White's 13th with tempo. Black should invest in Q-side play since he has a move to spare. Maybe start ... Bd7, ...Bc6, and ...Ne4 etc.) 13. P-KN4 N-Q3
 14. Q-R6 R-K1 15. R-R3 B-B1 16. Q-R4 B-N2? (16... Nfe4 is something to consider.) 17. P-N5 N-R4 (Now the N is useless.) 18. N-B1 N-K5
 19. N-N3 NR4xN? (Black appears demoralized at this point, not making a serious fight. Thus, the remainder needs to comment.) 20. QxP+ K-B1
