SNADSHOTS

From the 1994 playoffs comes this position (diagram right) after **24.9xc5+ b6**.

White played **25.Qc4** here, either rejecting or failing to see the obvious 25.Rxa6+.

Actually, however, diagram right is a **mate in 4** (**mate in 3** after the obvious 25. Rxa6+). Can you see it? Solution's somewhere in this page.

Diagram below is an off-beat but apparently successful anti-Sicilian (1.e4 c5 2.c4) opening from the 1994 playoffs.

In the three occasions this line was played, White won all of them: on boards 1, 3, and 4 in three separate teams. Two were from the same Division.

Although the apparent intent of White's set up is to prevent ...d5, Black in two of the three games, however, was able to shove in ...d5.

The following game appears to be the shortest in the 1994 playoffs: Alan Losoff (1860) - Dave Durkee, (1770) CRT vs Dragons 1.e4 d6 2.d3 c5 3.Nf3 Nc6 4.c3 Nf6 5.g3 e6 6.Bg2 Be7 7.Nbd2 Qc7 8. 0-0 (Diagram right)

There seems nothing wrong with Black's position at this point. But then things begin to unravel for Black after:

8..d5 9.Re1 e5 (This blocks 10.e5, but this makes the d-pawn vulnerable to a masking combination which White now goes after.) 10. exd5 Nxd5 11. Nc4 f6 12. Nfxe5 Nxc3 13.Oh5+ a6 14.Nxa6 1-0 Alert and fine play by Alan Losoff.

Solution to Mate in 4: <u>25.Rxa6+ Kb7 27.Ra7+|| Kxa7</u> (or 27...Kc8 28.Qxc7+ Qxc7 29.Rxc7++) <u>28.Qa3+ Kb7 29.Qa6++</u>

CHICAGO INDUSTRIAL CHESS LEAGUE

from Jim Hodina

March 28, 1995

Dear CICLers:

I wanted to pass along some very important information as we head into the home-stretch for this very successful 1994/95 season.

Spring Business Meeting

First, some highlights from the March 14th Spring Business Meeting. Officer elections were held and I would like to announce the officers for 1995/96 season. Satish Kale, currently Near West Division Chairman and long-time captain of JI Case, was elected President. Wes Underwood, Wheaton College, was re-elected to the Office of Treasurer. East Division Chairman and Columbia College Team Captain, Keith Kostecka was elected Secretary. Officer-elects will take their positions at the conclusion of the 1995 season. I would like to extend my personal congratulations and warm-hearted thanks to these gentlemen. I know they will do an outstanding job!!!

The other big news is that the proposal for a new time control of 45/90, SD/45 was passed by a vote of 12 to 8. This vote will go into effect at the beginning of the 1995/96 season. However, anyone who is willing to give this new time control a trial run yet this year, is encouraged to do so. There was substantial discussion on the secondary time control, sudden death in 45 minutes. Several legitimate concerns were expressed. Specifically, the rules governing sudden death time controls can be complicated. With no official Tournament Director on site, how can we fairly administer the draw provisions of sudden death time controls? A 45-minute secondary time control requires players to adjust their clocks. Will this pose a problem? As a solution, a proposal to modify the secondary time-controls to 30/60 was made. In order to honor the absentee ballots, which did not address the 30/60 secondary time control, this motion was tabled until the Fall Business Meeting. Captains, please take a moment to poll your team regarding this proposal so that you may vote upon the motion this fall.

1995 Playoffs - New Open Section

The 1995 playoffs will be structured into a "Open" and "Closed" sections. The Closed Section will consist of the top two teams from each division to crown the league champion - no change from previous years. Instead of qualifying for the second tier, as previously required, it will now be open to any team wishing to play. If your team is interested, you must complete the attached entry form and have it to me by April 30. On May 1, I will make the pairings.

Both Closed and Open sections will run concurrently. The first round will be played during

the first 3 weeks of May. For the Open Section, the first place team in each division will be seeded against the second place team in each division with pairings being based on overall win/loss percentage. For the Closed Section, the teams will be seeded based on their win/loss percentage from the regular season. In both sections, the higher seed will be the home team for the first match. Arrangements must be made between the two team captains as is typically done during the regular season. The final two rounds will be held at Midcon Corp in Lombard on Saturday, May 20. Midcon was the host of the Spring Business Meeting. A map is enclosed for your reference. The start time of the second round will be 9:00 am and the start of the third round will be at 2:00 pm. Time controls for the first round will be 50/2, 25/1; time controls for rounds two and three will be 50/2, SD/30. More information will be available to you when the pairings are announced.

Midcon has graciously offered their cafeteria services during the match. Snacks and lunch will be sold throughout the day, providing you express enough interest. To determine if there is enough interest, please complete the attached survey with menu and mail it/fax it to Midcon Team Captain, Jim Edgerton. This survey is not a firm committment. However, your reponses need to be reasonably accurate so that we may determine if the league can commit to the minimum order required by the cafeteria.

CICL vs Oak Park River Forest Chess Club Match

Hey, hey, hey....we actually won one!!! The third time was a charm for the CICL, beating the OPCC 10.5 to 5.5. After drawing the first match and losing the second, we came with all guns to bear. Knotted up 1-1-1, another challenge match is scheduled for Tuesday, June 13. As before, all you have to do to play is give me a call. Here are the individual results.

The 2 Squares Column "If two (or more) squares are attacked more times than they are defended they may fall"

Diagram 86

In diagram 86 above black has two weaknesses. His king and queen are on the same rank and the square h6 is attacked three times but only guarded twice. Note that square h6, not the pawn on h6, is the focal point of the intersection of the rank the black king and queen are on with the file the three white major pieces are on.

- 1. **\(\mathbb{Z}\)** xh6+ gxh6
- 2. 🖺 xh6+ 堂 e7

If 2...Rxh6 then white will have a queen vs. rook ending. Do you know this so called simple ending?

after 3. 2 h4+

White's rook is pinned to the file. White must force the black king to a square which allows white to check with the queen while not on the h file.

-**堂**e8
- **4. 営**h5 **堂**-any
- 5. **2**d1+ or f5 or g5+ (followed by 6. 2 xa6 winning the queen! - ed)

Diagram 87

In diagram 87 above black has three weaknesses. His bishop on b8 is attacked twice by the white rook and by the masked white bishop and is only guarded once. His pawn on f4 is attacked twice and only guarded once. Those two weaknesses and his king are all on the same diagonal. therefore the b8-h2 diagonal is also a weakness in black's camp. It appears that sacrifices on the b8 and f4 focal points could be fruitful. should be sacrificed first? My uncle says the sacrifice which need not be accepted should be made first. If it is not accepted we may retreat with our booty. In the problem above neither sac requires forced acceptance so either can be done first.

1. 🖺 xg8 🗮 g8

Or we can sac the B first: 1.Bxf4 Kd7 (2...gxf4 3.Qxf4+) 2.Rxb8 Rg8 3.Be5

Diagram 88

In diagram 88 we see the black king and queen are on the same row. We also see if the white knight moved to e4 there would be a focal point of knight and rook at f6 and also at d6. Consider a 2-squares attack on the two focal points. White has 3 attacks but black has only 2 defenders. Analyse to see if the 6th row falls. Also examine the position after the simplication to see if white can win.

- 1. \(\mathbb{1} \) \(

- 5. \(\text{\text{\$\psi}}\) e3 \(\psi\) e5

After 5... **±** e5

White gave up three pieces for a queen. 95% of the time 2 pawns vs. 1 pawn wins. This is one of the wins. Study it.

(The natural inclination to "check" with 6.f4+ only leads to a draw as black keeps the "opposition" after 6... gxf4+ 7.gxf4+ Kf5 8.Kf3 Kf6 9.Ke4 Ke6, etc.

White should strive to force Black to lose the "opposition" - ed)

GAMES

Playing on board 1 and still gain 121 rating points for the season is a feat rarely accomplished. And that's exactly what Florentino Inumerable, last season's East Division MVP accomplished.

In the following game, Inumerable puts the game away with incredible suddenness via a six-move combo out of nowhere.

Modern Defense

WHITE: A. Jasaitis (2216) BLACK: F. Inumerable (2235)

26... 黨 c3!! 27. 營 d1

There's no other place for the Queen as White has to guard the Knight at d4.

29.Qd3 is also of no help as Black simply pursues the same theme as in the game.

If 31.Qxd4 then 31....Ne7+ 32.K-any, Nxd4 and Black's a Knight up.

The North Division's MVP was Tom Miller with a record of 8 wins, 2 draws, and 3 losses for the entire season plus a ratings increase of 93 points.

In this one, Miller (White) sacs two pawns for the attack. In the ensuing play, White offers a third pawn for a devious mate. Black accepts the pawn and that was that.

Correct is 31...g6. The sac of the f-pawn is part of a devious trap White has cooked up.

Final Position

This game submitted for the best upset award has a nice and unique touch to it. Black makes the first mistake losing a pawn but then plays a solid game and recovers material. What's unique are the probing Queen maneuvers in the finale before the kill.

Queen's Pawn

WHITE: Dave Baurac (1607) BLACK:Carl Reid (1328)

Knights - J.I. Case, Feb. 16,1995

1.d4 d5 2. 全f3 全f6 3.e3 **点**g4 4. c4 e6 5. 管b3

Though this could lead to doubled fpawns, a pawn at f3 prevents a Black Knight from landing at e4 and g4.

11...Qg6 looks okay.

12. 全xd5 全xd5 13. 查xd5 全f6 14. 查b3 全d6 15. 全b4 量b8 16. 全xd6 坐xd6 17.0-0 0-0

18.曾c2 里d5

Alert play. Black spots a double attack on the White a and f-pawn.

19.83

Saving the a-pawn instead of the f-pawn is a wise choice.

19... 坐xf3 20. **点**g2 坐h5 21.

堂c5 堂g6 22.堂h1 罩fd8 23. □g1 鱼g4

The threat of a one-move mate is easily defended.

24. 堂c2

This prevents 24...Nxc2+ and offers a Queen trade. However, it inadvertently gives Black access to a key square which would later be a reason to cause White grief. Though White'd relinquish pressure on the g-file, 24.Rgf1 seems better.

24... \#f6!

The threat of 23...Nxf2 24.Qxf2 Qxf2 is easily parried. But what Black's actually doing here is force White into a set-up for Black's next move.

25. 월gf1 \d6! 0-1

Final Position

If 26.f4, then 26...Nxe3 followed bu 27...Nxf1 and 28... Q or Rxd4 winning not only the exchange but also two pawns in the process.

Superb maneuvering with the Queen by Carl Reid. Notice that without 24...Qf6 there'd be no fork at e3?

CTA perked things up last February with a 4-2 upset victory over CRT. Although one of CTA's wins was on forfeit, two were against CRT's outstanding players, Friesema and Bargerstock.

In this one on board 2, things don't go White's way in the opening and gets worse in the middlegame when White loses a piece for a pawn.

Then in the endgame White sets up a two-move combination to win a piece disguised as a simple one-move threat to win a Bishop.

Black falls for the feint and retreats the Bishop, enabling White to win back a piece and come out one pawn up.

It's all White's game from then on.

Sicilian

WHITE: Randy Byrnes BLACK: W. Friesema (2085)

CTA - CRT, February 1995

1. e4 c5 2. Nf3 d6 3. Bc4

On thing with this move is that it gets Black out of the "book. However, as this game illustrates, it poses little difficulty for Black to equalize with the thematic ...d5 in the Sicilian

29...Rxf3 30. Rxf3 exf3 31. Qxf3 Rf8 32. Qh5 Qe7 33. Qh6

A clever "threat". For all appearances White seems to be only threatening the Bishop at b5.

Black can't recapture at h7 as he'd lose the Rook: 34...Qxh7 35.Qxf8+.

Final Position

The second upset in the CRT-CTA encounter was even more resounding because of the 474 rating points difference involved.

In this game, Black fends off a mating attack with skill.

When White breaks off to regroup (32. Bf3), it's all that Black needs to take over the attack himself.

Final Position

Gata Kamsky took the first game on time forfeit from Viswanathan Anand in the first game of the PCA final match. The winner gets to challenge Kasparov for the (PCA) World Title.

Though White has a mobile pawn center, his pieces are not as well coordinated as Black's. Black's Knight at b5 restricts the mobility of the White Bishop on the light squares and remains at his outpost throughout the rest of the game. What a Knight!

Final Position

The thing that's surprising is Anand's losing on time, considering the fact that Anand is known for finishing a game with lots of time to spare in his clock.

Why Anand took too much time than he normally does is puzzling. Perhaps Kamsky's improvement over a line they played in the 2nd round of the FIDE cycle had something to do with it.

Many thanks to **Dave Baurac** for providing this game via E-mail to **Charlie Ward** then to the Bulletin.

THE BOOKSHELF - Reviews by Duane Satterlee for the CICL

How to Be a Complete Tournament Player

by Edmar Mednis (G.M.), Maxwell Mcmillan Pub.

This is a small, very readable book. G.M. Mednis very openly shares many of his tournament experiences and gives advice that is uncommon in candor and the topics covered.

The author of "How to Beat Bobby Fischer", Mednis has played in many international tourneys, on an Olympic chess team and in Interzonal World Championship candidate tourneys. He claims considerable experience as a chess trainer. For me, the most valuable section was an in-depth discussion on the rarely mentioned topic of opening transpositions and move order. He also covers some topics that may seem simple, but often make a difference between won and lost games: how to manage your move recording in time pressure, dealing with the disruptive influence of time control, (I don't know about you, but I have blown a few games at time control) how to manage backto-back tournaments and stay in playing condition, several aspects of dealing with adjourned games, studying your opponent, making shrewd guesses about unknown opponents, selecting your opening repertoire, developing a training program, and his library recommendations. While in some cases. games by other masters are included, the entire book is illustrated with games and positions that the author has both won and lost in the context of the chapter topic. More than most authors, Edmar lets us in on his thinking as the game is played and during adjournment: his hopes and fears, and his assessment of the situation before, during and after the game.

Chess is nearly limitless, so the author weaves the theme of wise use of time throughout the book. How to spend your study time (He says half on openings, a quarter on endings, and a quarter on "learning chess"), how to spend it during a game, how to spend it during adjournment, and how to spend it when planning a sealed move.

Mednis says modern masters plan their opening move order and transpositions very carefully, and states that "this new science is the most important single development in

current opening theory." Furthermore, he states, "The establishment of the most exact move order for achieving your desired variation is an absolute pre-requisite for successful opening play." In this chapter he covers the 1 c4 and 1 Nf3 opening moves as, "The champion opening moves for maximum flexibility and deviousness." He quickly covers transpositions leading to different variations in the Sicilian, Ruy Lopez, Kings Gambit, various Indian games, English, Queen's Pawn openings, Slav Defense, Karo-Kann, Philidor's defense, Pirc Defense, and French Defense. Even at lower levels of play, I have been tricked and trapped in many opening transpositions. I used to wonder what happened.

Here is a transposition example from a CICL summer game. Radavicius-Satterlee Jul 1992. 1. e4 e6 2. Nf3 d5 3. e5 c5 4. Bb5+ Nc6 5. O-O Qa5 6. Bxc6+ bxc6 7. d3 Ne7 8. h3 Rb8 9. b3 [Whoa! If there is another edition of this book, I'd wish the author would add more on transpositions and also add a section on use of computers in tournament preparation.

The USCF charged \$15.30 for this 111 page book. That's pricey, but you might consider it for your club library, since it can be read in a couple of weekends.

ATTENTION LADIES!!!

We will again focus on some activity for the ladies (or anyone else who prefers an alternative to the speed tournament). Either bring a game of your choice and round up some partners, or get involved in a "Make it & Take it" craft project, directed by Lorraine Jasaitis.

The craft project is not yet finalized. Notify the Banquet Chairman to register (for free) to assure an adequate supply of materials.

DOOR PRIZES!!!

All attendees will be entered in a door prize drawing for chess books and equipment!

COST:

\$16.00 Per Person Advance Registration, if received by May 31.

\$18.00 Thereafter

\$1.00 Additional for entry in the sectioned speed tournament. Bring set & clock.

Although team dues include prepayment of one banquet ticket, all attendees must pay admission anyway. Rebates of the prepayment will be distributed after dinner. Although it may seem strange, this simple method has grown out of decades of experience with complications from other methods.

Even if you are unable to pay by the advance registration deadline, please contact the Banquet Chairman as soon as you know you are attending anyway. This will keep last-minute complications to a minimum.

HOW:

A registration form has been provided.

HIGHLIGHTS OF LEAGUE MEETING Tony Jasaitis, Secretary

While everyone should read the complete minutes of the meeting, I suspect that many do not. I thought it would be a good idea to summarize the most important events and ramifications of the meeting that need the greatest attention.

- a) We were forced to guarantee a minimum attendance at our banquet of 85. This is above our average attendance (although last year came close). This makes a high turnout more important than ever. The banquet details and registration form should be elsewhere in this bulletin. Also see item #7 in the minutes.
- b) Many vacancies exist in league positions (item #8). This is your chance to contribute!
- c) The proposal for faster default time controls was passed. See items 9-11, including some procedural points. Although the rule change is effective next season, teams are encouraged to use it already. Your experiences may result in suggestions for rule changes before the next season starts! A copy of suddendeath rules should be present elsewhere in this bulletin.
- d) A 30/60 secondary time control (instead of the new G/45) was proposed for debate and vote next meeting. See item 11.
- e) On-site lunch service might be available at the playoffs (item 12). A survey should be present in this bulletin.
- f) The Second Tier of the playoffs will be an open team tournament. "Loose" players can be pooled into teams. See #13.
- g) A point that did not receive attention is that volunteers are need to run the playoff tournament. If you are unsure if you are up to the task, experienced TD's from prior playoffs will be around to provide the benefit of their knowledge and experience if needed. Contact Jim Hodina.
- h) As I see it, detailed attention is needed to all the ramifications of our new time control rule. Some holes and gray areas were brought up at the meeting (see minutes), but I don't think all of them have been found yet. For example, since players can still agree to a time control of their own choice, what effect if any do the new adjournment rules have when both players agree to play under the old time control? Does a player then regain the old unilateral right to adjournment?

Please try think of any such peripheral issues and bring them to the attention *****ofme or our new President and/or Secretary. This is why we need you try out the rules already, to help discover such pitfalls before we have to endure them for a whole new season.

Minutes

[Due to technical difficulties with the recording, some of the dialogue was unintelligible. I am partially relying on memory and notes, and have not been able to identify some people speaking. If anyone notices significant errors or omissions in these minutes, please contact me. -Tony Jasaitis]

- 1. President Jim Hodina called the meeting to order at 7:17pm. He thanked Jim Eggerton for arranging the meeting site, which will also be the playoff site.
- 2. No changes were noted to the minutes of the prior meeting.
- 3. Treasurer Wes Underwood gave a brief review of CICL finances, noting that most expenses do not occur until the end of the season. A copy of the report will be published in the bulletin.
- 4. Ratings Chairman Charlie Ward announced that he has made available more current ratings than the bulletin's edition, via electronic mail and/or FAX. However, he strongly prefers e-mail because the FAX is too slow and ties up the phone line too long. FAX recipients who cannot receive e-mail directly are encouraged to find a friend or co-worker who can. Al Litvinas asked how to resolve the possibility of different team captains having different editions of the ratings. Secretary Tony Jasaitis quoted from the rules, which state: "Players shall be ranked by most recent CICL rating ..."

- 5. East Division Chairman Keith Kostecka asked how to deal with Hull Trading Company, which has had excessive forfeits. Secretary Tony Jasaitis referred to the rules, which state, "Any team that forfeits an average of one-sixth or more of its games per match during a season may compete in the following season only after approval by a majority vote of team captains. An entire forfeited match will not be counted for this purpose."
- 6. In the Near West Division, A&B Radio dropped out, and Unilever forsees difficulty in fielding a full team next season. A merged team is a possiblity next year, or an alumni team. Fel-Pro dropped out of the North Division.
- 7. Banquet Chairman Tony Jasaitis said that the Banquet will be at Harvey's Prime Rib in Westmont again, on June 9th, with food served at 6:45pm. Admission will be \$16 in advance, \$18 at the door. Tony's wife will again provide a "Make-it-and-Take-it" craft project for the ladies. Chess materials will again be raffled as door prizes. Details and a registration form will appear in the bulletin. The league is more "under the gun" to have a large turnout at the banquet, as we had to guarantee a minimimum turnout of 85 this year. Last year's turnout was 84, while 60-65 is average. Al Litvinas suggested that the awards ceremony be shortened, with time taken for only the major awards. No discussion of the idea ensued.
- 8. Election of Officers for next season:
 - a) President Jim Hodina and Secretary Tony Jasaitis did not run for re-election.
 - b) The following were all elected unanaminously:

President: Satish Kale Secretary: Keith Kostecka Treasurer: Wes Underwood

- c) Vacancies exist in the following appointed [read volunteered!] offices: Bulletin Editor, Trophy Chairman, Banquet Chairman, Near West Division Chairman, North Division Chairman.
- 9. The proposal for a revised time control (45/90, Game/45) was debated. The discussion focused on the secondary time control. Some players did not want to wind up playing speed chess at the end of the game. Tony Jasaitis relayed advice from his teammate Al Losoff, an experienced tournament director, who recommended against sudden death time controls as a large source of disputes. Confusion in resetting the clock was brought up. Issues regarding adjournment procedures and their timing were raised.

As the consensus was clearly in favor of a non-sudden-death secondary time control, President Jim Hodina wished to take a vote on amending the secondary time control of the proposal to 30/60. However, Charlie Ward strongly objected to the effect on the absentee ballots, which Jim wanted to assume were in favor of the amendment as well. Eventually a vote was taken on only the proposal as originally stated. It passed 12-8 with 2 explicit abstentions, and 3 teams not responding at all.

The new rule is effective next season; however, teams are encouraged to try it already, to help shake out any problems with it in preparation for next season. In the remainder of this season, paired teams which both voted for the new rule may be most interested in using it already when playing each other: Northrup, Sears, Kemper, Post Office, Alumni Central, CRT, Bank America, Amoco, AT&T Chargers, Argonne Knights, Unilever, and Wheaton.

It was brought out that many players are not highly familiar with sudden death rules. A copy will be published in the bulletin.

10. The new time limit rule also eliminates a player's unilateral right to an adjournment. Under it, adjournments will only be possible with the agreement of both team captains. This raised the question of what the procedure should be for requesting an adjournment, especially with respect to stopping of the clock while the team captains decide whether the adjourment will be allowed.

The consensus was that the procedure should be: write the move that is to be sealed (out of sight of the opponent, of course, as presently), then stop the clock. If the adjournment is not approved, the game continues with the written move; otherwise the adjournment procedure concludes as usual.

Players might also be inexperienced at adjusting the clock when time controls are not in multiples of an hour. The following example is an illustration for the new default time controls of 45/90 followed by Game/45. Both players' clocks would initially be set at 4:30. 6:00 would mark the end of the first time control (45 moves in 90 minutes (1.5 hrs)). If both players make the first time control, the clocks of both players would be moved forward 15 minutes, so that 7:00 would mark the end of the second and final time control.

11. A proposal was submitted for debate and vote at the fall business meeting: to make to secondary time control 30/60 instead of G/45 (sudden death).

- 12. Jim Eggerton described plans for the playoffs, to be held at Midcon. It will be held in the cafeteria on the second floor. A skittles/analysis room is planned. Players will have access to the first two floors. The building is non-smoking. A limited food service is possible. Jim distributed a survey regarding food service (a copy will be published in the bulletin). Team captains are requested to tally their team's lunch wishes and fax the form back to Jim. If sufficient response exists, on-site lunch is likely to be provided.
- 13. Jim Hodina announced that the Second Tier of the playoffs will be an open team tournament (no requirement that the teams finish 3rd and 4th in their division). Tim Williams suggested that teams be formed of individuals who wish to play if their team as a whole doesn't [or if they do not make their team's playoff lineup -ed]. The idea was well-received, without an official vote.
- 14. Tony Jasaitis reported that the 1993-4 season's playoff book is almost complete. It will contain an index, diagrams, and some notes. Copies will be mailed to teams when the work is complete.
- 15. Trophy Chairman Bob Stoltz requested that Division Chairmen provide him with the following information as soon as it is finalized so that he can expedite ordering the trophies: the first and second place teams, the Most Valuable Player, and the Outstanding Team Captain. His day phone is: 708-224-2983.
- 16. President Jim Hodina closed the meeting at 9:10 pm.

CHAPTER 4

Sudden-Death Rules

Note: A sudden-death time control is a relatively recent addition to tournament procedure. Until such time as players are familiar with these controls, USCF strongly recommends that a copy of these rules be posted whenever a sudden-death control is likely to be in effect.

- 1. Definition. A sudden-death time control requires each player to make all the moves of the game in a certain period of time, as opposed to more standard time controls that require only a certain number of moves in a given time.
- 2. Purpose. The purpose of sudden-death time controls is to guarantee that a round will be finished no later than a given time. They are, therefore, particularly useful in situations when the availability of a tournament site is limited in time, or when the players themselves have only limited time available for a tournament.

102

- 3. Restrictions. In order to use a sudden-death time control in a tournament:
- A. Advance notice must be given in all Chess Life ads and other publicity.
- There must be at least 30 minutes per player in a sudden-death time control. B.
- The USCF office maintains a list of any revisions to these restrictions, which may be obtained by writing to that office. ن
- 4. Rules. Unless otherwise specified, all normal USCF rules shall govern. For example, both sides are required to keep an accurate score. The only exceptions to normal rules will occur when one or both players are in time trouble (see Rule 9, below).
- disputes may be settled without delay. All claims, however, whether time forfeits, illegal moves, draws, or others, 10.D, below). The tournament director may expel from the 5. Tournament Director. One or more directors should be available during any sudden-death control, so that any must be initiated by the players themselves (but see Rule room or further penalize any spectator who interferes with a game or calls a player's attention to any available claim. The director is responsible for interpreting all rules.

tor or deputy watching every game, they may initiate a VARIATION: If it is possible to have a tournament direcclaim, including a time forfeit, on behalf of a player, but only if this procedure is carried out consistently and announced in advance. 6. Duration of the Game. A player loses on time if he fails to complete all of his moves before his flag falls. It is not necessary that his opponent have a complete and reasonably accurate score sheet.

Sudden-Death Rules

7. The Won Game.

- A game is won by the player:
- 1. who has mated his opponent's king;
 - 2. whose opponent resigns; or
- 3. whose opponent's flag falls first, at any time before the game is otherwise ended.
- player's flag must be up and his opponent's flag rector. To claim a win under this rule, the ately stopping both clocks and notifying the di-A player must claim a win himself by immedimust be down after the clocks have been stopped. B.
- 8. The Drawn Game. A game is drawn:
- if one of the kings is stalemated;
- by agreement between the players during a game, not before or after the game; m.
- if both flags are down before a win is claimed; ပ
- forced repetition of position under the conditions if a player demonstrates a perpetual check or of USCF Rule I.12.F; Ö.
- sible checkmate, as provided in USCF Rule if neither player has sufficient material for a pos-山
- sible checkmate as described in USCF Rule if one player has insufficient material for a pos-I.12.I, and his opponent's flag falls first. Ľ.
- 9. Time Trouble. Time trouble occurs when a player has less than five minutes to complete the game. A player in such a situation:
- A. must handle the clock with the same hand with which he handles his pieces;

105

- must remove his hand from the clock button after depressing his button and must keep his hand off the clock until it is time to press it again; B.
- must not pick up the clock; ن
- D. must replace pieces on his own time, if he accidentally displaces one or more of them.

CICL

Class Championships

An exciting event for the CICL members!! PROVE that you are the BEST in your class

I am trying to organize a 5 round SWISS class championship tournament for CICL members. The format is similar to that of USCF tournaments. 1st game to be played on Friday night, 2nd and 3rd on Saturday and 4th and 5th on Sunday. I am proposing the weekend of August 04 for the event. I am also seeking volunteers for the site. It should be big enough to accommodate 150 boards. A small fee will have to be charged in order to cover the cost of the awards. A feedback from you is important to make this event successful. Please fill out the attached survey and mail it to me ASAP. If there are enough players, we will have awards for each of the following classes:

13 SEPARATE CLASS SECTIONS:

CICL RATINGS	CLASS
2200 +	Master
2100 - 2199	Expert - Top Half
2000 - 2099	Expert - Bottom Half
1900 - 1999	Class A - Top Half
1800 - 1899	Class A - Bottom Half
1700 - 1799	Class B - Top Half
1600 - 1699	Class B - Bottom Half
1500 - 1599	Class C - Top Half
1400 - 1499	Class C - Bottom Half
1300 - 1399	Class D - Top Half
1200 - 1299	Class D - Bottom Half
1100 - 1199	Class E - Top Half
1000 - 1099	Class E - Bottom Half
UNR	A class of their own

Call me at (708) 887 - 2372 (Office) or (708) 325 -5253 (Home) for any ?s. Thank you.

Ratings Chairman's Report 3/12/95

Ratings Speedup

Publication of recent issues of the CICL Bulletin have taken 3-5 weeks from the time that I have completed the ratings until the issue is in the hands of team captains. This means that more than two months can elapse between the playing of a match and its documentation in the Bulletin. Also, it is often difficult for team captains to arrange their lineups because the ratings of new players do not show up long after they have acquired a rating, and the printed ratings are often out of date by the time they are used. Team standings are likewise out of date.

I am proposing to remove this delay by transmitting the ratings directly to team captains by e-mail as soon as I have completed the monthly ratings update. I am also experimenting with faxing the ratings to teams that do not have the ability to receive e-mail. I am able to send the report from my computer directly to fax machines; however, each fax ties up my home phone line for about one minute per page. Continuing to distribute results by fax will depend on minimizing the total number of fax recipients.

If team captains (or some other team representative) are able and willing to receive advance copies of the CICL ratings electronically, please let me know the e-mail address (preferably) or fax number (if necessary). I will be sending the paper ratings reports for publication in the Bulletin as in the past, so if a team does not have an e-mail address or fax machine they will eventually receive the ratings via U.S. mail. Missing Results

Two match results from early rounds have not been received: Exemplars at Felpro (North Div. round 3) and Alumni Central vs. Hull (East Div. round 5). If these matches have been played I would appreciate it if either captain would send me the results.
