Ratings Chairman

Tim Williams Case Corporation:

Bulletin Editor

1. President Satish Kale called the meeting to order at 7:15pm.

- 2. No changes were noted to the minutes of the Spring 1996 meeting.
- 3. Treasurer Wes Unuerwood presented a report of CICL finances, which will be published in the bulletin. He

(Turn to next page)

reported a surplus of about \$500 from last season, due largely to savings on trophies realized by Wayne Elilice. Also, banquet-related activities were profitable, and the bulletin was under budget. Since we are a non-profit organization, Wes proposed cutting the dues this year to consume last year's surplus. We also have the cushion of a computer fund that will funds. With several budget-related items on the agenda, the determination and vote on the size of the dues was postponed until later in the meeting.

- Ratings Chairman Charlie Ward asked any team captains that still do not have an e-mail contact to d etermine if any of their team members can receive e-mail for them; it makes mass communications much easier and quicker.
- 5. Bulletin Editor Tim Williams requested all division chairmen to submit their schedules and team captain contact lists for publication in the bulletin. Wes Underwood and Irwin Gaines suggested that items distributed in paper form, such as the Treasurer's Report, be distributed as part of the bulletin, as it is the most likely record of our activity to be preserved. After some discussion related to the effect of such materials on page numbering, Tim agreed to it. Tim reported that as editor of the Illinois Chess Bulletin, he has provided the CICL with its own section. Al Litvinas reported problems with the score of the game Santiago vs Buerger in the prior bulletin.
- 6. Trophy Chairman Wayne Ellice raised the issue of the monetary tradeoffs of teams choosing chess gift certificates instead of trophies, particularly whether they should receive an amount exactly equivalent to the value ofthe trophies. Karel Dobr pointed out that the amount could be ill-defined; we could get a poorer deal on fewer trophies, raising the cost per trophy. Irwin Gaines proposed that "cash" awards be fixed at \$70 and \$50 for first and second place for those less than the value of last season's trophies. The proposal passed 11-4.
- 7. Publicity Chairman Carl Reld reported distributing league literature a* USCF tournaments. He reported difficulty getting publicity in any publications for free. Tim Williams, as editor of the ICB, offered a deal of running a 1/4 page ad for a year at a 1/8 page price, for \$86.40, which includes a 10% repeatad discount. The proposal was accepted 14-1.
- 8. East Division Chairman Dan Fraats reported that

- the Mercantile Exchange has dropped out, and that Columbia College has returned. Columbia was readmitted unaminously.
- 9. Dan also reported that a team comprised of current and former officers of the Illinois Chess Association is interested in playing in the CICL. Discussion ensued about the concept of an "exhibition team", and the possibility of expanding our definition of eligility, e.g., such as to include non-profit organizations. Irwin Gaines cut through a murky debate by pointing out that no vote is necessary for this team to play as a non-member against our teams this season any more than we needed to take special action to play against the Oak Park Chess Club. The consensus became that this team should pay our dues and receive our bulletin, as an introduction to our league; it should also define the nature of its membership so that we can consider amending our constitution to allow teamsof its type at our next meeting. Dan will get back to the team and try to work it into the East Division schedule.
- 10. Near West Division Chairman Howard Klinefelter reported that the definition and schedule of the West and Far West divisions was still up in the air. It was unclear if Argonne will have two teams again. The Lucent teams favored a single West Division to provide a more varied schedule and a broader spectrum of opposition strength. Ultimately they agreed to continue with the two division setup provided there is an interlocking schedule between the two divisions, as there was a couple of years ago.
- 11. A new Alumni team was formed in the Near West Division, to be called Alumni Pawns, initially comprised of former Pawns and Midcon players. The following individuals were unaminously granted alumni status: from Midcon: Brent Hansen, Hardle Logan, Robert Young, Bob Lorenz from Pawns: Wayne Ellice, Ron Hard, Tom Notermann, George Dzurickso, Dave O'Deli, Bob Mikulecky, Pat McKay, John MacBean. [Since then, by consensus of e-mail exchanges, the Pawns have been admitted as a multi-company team; hence the specific names are no longer an issue -TJ].
- 12. North Division Chairman Pat Sajbel reported that the same six teams are back for this season, and will play a double round-robin. He also reported that a team with a controversial record is on "probation". In an ensuing discussion, Charlie

- Ward emphasized that existing USCF ratings are to be used for all new CICL players who have them. A note should be entered on the match result sheet to alert him.
- 13. With the adoption last meeting of two-part score sheets as a means of obtaining games for the builetin, Irwin Gaines proposed that the prior incentive of monetary game awards (i.e., chess gift certificates) be eliminated. The proposal passed unaminously. Tony Jasaitis pointed out that the award to provide incentive for annotated games (Best Annotation) should be retained, but a vote on it slipped through the cracks.
- 14. Ideas for smaller team sizes were discussed. The Mercantile Exchange could field a 4-man team next season. Sears expects to be able to field only 4 players dependably next year. Teams have folded in recent years that could have played with 4, and some teams might have been able to join the league in prior years if we had allowed 4-man teams. Tony Jasaitis explained his idea for "variable team sizes", published in the bulletin last season. Even though sub-sized teams would not be eliqible for the playoffs in Tony's proposal, Irwin Gaines objected to the effect matches with those teams would have on standard-sized teams making the playoffs. Considerable discussion led nowhere concrete. Irwin called for others to submit alternate written proposals that we can study and vote on next meeting.
- 15. The next subject was Howard Klinefelter's proposal to rename the league, to get away from the potentially misleading word "Industrial". Al Litvinas countered that the word is not as narrow as some people have assumed: banking, retail, etc. are often referred to as industries. Wes Underwood pointed out the practical consequences of a name change, such as changing checks, accounts, logos, affiliate listings, loss of current name recognition, etc. People recalled similar chess I leagues in other cities that also used the word "Industrial". The assembly unaminously voted to retain the current name.
- 16. Irwin Gaines reminded us that the playoff tiebreaker was changed to game points last year without a league meeting, and should be on the agenda; otherwise it should revert back to the tiebreaker stated in the rules. We decided to tackle the subject in the spring meeting, after publication of an appropriate proposal in the bulletin.

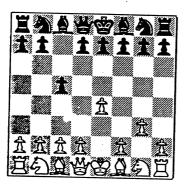

- 17. With the monetary issues resolved, Treasurer Wes Underwood proposed that dues be reduced this season to \$70 per team (refer to item #3 above), which were approved unaminously. Anyone using the dues worksheet that was distributed at the meeting should change the line for "Annual Basic Dues" from \$35 to \$40.
- 18. Discussion was opened on the site for this season's banquet. Chuck Dobrovolny pointed out that this season marks the league's 40th anniversary, and relayed a suggestion from Frank Suerth and Jim Brotsos to hold the banquet at the site of our very first banquet. However, Karel Dobr informed us that the place (in Cicero) burned down. The banquet will be held on Friday, June 6, at Harvey's Prime Rib in Westmont, as usual.
- 19. The playoffs will be held on Saturday, May 17. No playoff site was determined. All teams should look into the possibility of making their sites available.
- 20. Tony Jasaitis, who has been speed chess TD at the banquet in recent years, requested feedback on whether people prefer 7-minute or 5-minute chess. 7-minute was common at older banquets, but Tony has cut it to 5-minute several times so that the tournament would not go on too late. No one objected to permanently switching to 5-minute chess.
- 21. Two-part scoresheets will be ordered and malled to team captains. [Home team captains should collect copies of all the score sheets and send them to the bulletin editor. Those using their own record books should submit photocopies or transcribed copies. Interesting games should be marked in some way for the bulletin editor's attention. -TJ]
- 22. Charlie Ward emphasized that BOTH team captains should send/fax copies of match result sheets to the division chairman AND the ratings chairman. He still encounters a large number of matches for which no results are submitted by anybody; he can always discard duplicates.
- 23. Erman Paraoan inquired about the USCF membership dues discount that is available to league members[because we are an affiliate TJ]. Charile Ward said he will distribute the information by e-mail and in the bulletin.
- 24. President Satish Kale closed the meeting at approximately 9:45pm.

GAMES

A. Czerniecki (2083) (Alumni Central) - A. Jasaitis (2144) (CRT) 11/06/96 Board 1 ;2.g3 Sicilian

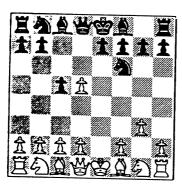

Notes by Tony Jasaitis

1.e4 c5 2.g3

An offbeat way to steer toward the Closed Sicilian, while willing to get into some unusual positions if Black wishes to try to exploit the lack of Nc3. Being an aggressive player, I do. Black's reply is recommended by Euwe.

2...d5 3. exd5 Nf6

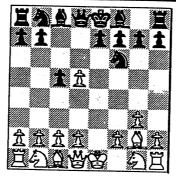

I can't find any analysis on this move, but I like it better than the positions resulting from the book 3...Qxd5 4.Nf3 Bg4 5.Bg2 Qe6+ 6.Kf1, Nc6 7.h3, when it turns out that the position of White's King is no worse than the position of Black's Queen and Bishop.

4.Bg2

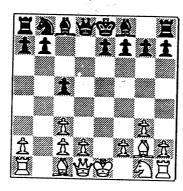

(See diagram top of next column)

Not 4.c4? e6!, when White's weak central squares and backward d-pawn will give

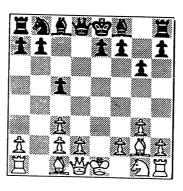

Black full compensation for the sacrificed pawn, as in similar themes in the Center Counter Defense (1.e4 d5 2.ed Nf6) and 2.f4 Sicilian (2...d5 3.ed Nf6).

4...Nxd5 5.Nc3!? Nxc3 6.bxc3

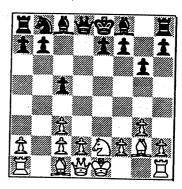

White has willingly taken on the disadvantage of doubled pawns (and a weakened a-pawn) for strong pressure generated by his KB on the long diagonal and his QR on the opened b-file, and, as I soon discovered, Black's c-pawn. Since White's doubled pawn is not on an open file, and is part of a compact mass, it will not be an easy target for some time. Further, weaknesses can be insignificant if one has the initiative.

6...g6

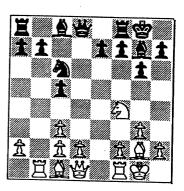

The most effective way to pressure White's pawns, but withdrawing defence of one of my own which will soon need it. The move also reduces the options for developing my QB, especially thanks to White's next move.

7.Ne2

Maximizes the power of the KB, with an eye on, of all things, my c-pawn!

7...Bg7 8.O-O Nc6 9.Nf4 O-O 10. Rb1

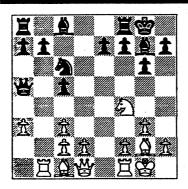

12...Qa5 11.a3

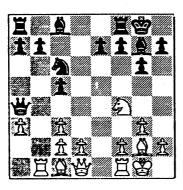

(See diagram next page)

I might not have taken the pawn even if it had been offered, since Black's position would have become very awkward, but my opponent is a conservative player and protects it. I was happy to see Ba3 further inhibited.

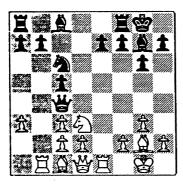

11....Qa4?!

Trying to prevent c4 and Qe2, both of which would support Rb5, but loses time and gets the Queen into an awkard situation. Black should have seriously considered...e5 and/or ...c4.

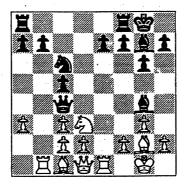

12.Nd3 Qc4 13.Re1

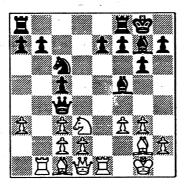

White threatens to force the Queen into a corner with 14.Re4 Qa2 15.Rb2 Qa1, not to mention the continuing paralysis of the Queenside. I was starting to conclude that I was lost when I finally resorted to the only chance...

13.....Bg4!

(See diagram top of next column)
Let's just shut down that diagonal, if only for a moment...

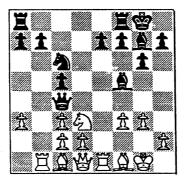

14.f3 Bf5!

Then try to turn the loss of the b-pawn into a trade, even if does leave things a little loose...

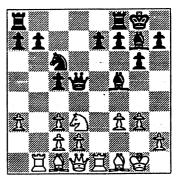

15.Bf1

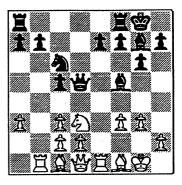

White declines the chance to win some dubious material with 15.Rxb7 Bxd3 16.cxd3 Qxd3 17.Bxc6, when Black has a bind as compensation, especially if he can get in ...c4. With the text move, White threatens to trap the Queen with Nb4, and is still attacking the free b-pawn. Is it over?

15....Qd5!

(See diagram top of next column)
Ha! The pawn is protected via 16.Rxb7,
Ne5.

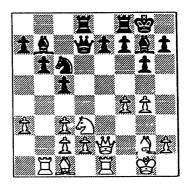

16.g4!?

Forces the B back to first rank, but I don't mind, as I finally get to develop it the way I wished for all along. But White's move has another point: he pushes back some of Black's immediate central pressure, and builds some of his own central and Kingside pressure. For the time being, White has enough central control to afford the additional exposure of his king by g4. On his next move though, White drifts from his plan and gives Black two free moves.

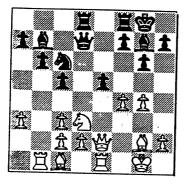

16....Bc8 17.Rb5? b6 18.Rb1 Bb7 19.Bg2 Rad8 20.Qe2 Qd7 21.f4

Believe it or not, Black's problems with his c-pawn, long diagonal, and b-file are not yet solved! The tempting 21...Ba6 fails to 22.Nxc5l Black must be careful about moving his N for the same reason. Black would like to play 21...Rfe8 to support ...e5 to open up lines to expoit his superior

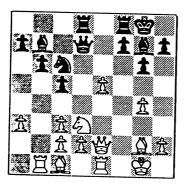

development and White's airy King-side, but that would probably be met by 22.Ne5, transforming the nature of the game. So now what?

21.....e5!

Break it open NOW! Because of the pending pin on White's Queen, the rook can enter play afterward.

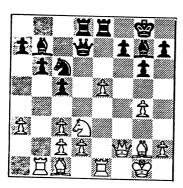

22.fxe5?

White still could have made a game of it with 22.f5! gf 23.gf Qxf5 24.Nxc5l Ba8l, although Elack should still

have the upper hand once he gets ...f5 in.

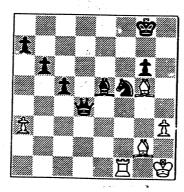

22.....Rfe8 23.Qf2

White also has difficulties after 23.Qe4 Na5 24.Qe2 c4. Black had about 10 minutes left on his clock for the rest of the game.

23.....Ba6 24.Re3 Qxg4 25.e6 Rxe6 26.Bb2 Rxe3 27.dxe3 Bxd3

28.cxd3 Rxd3 29.Rf1 f5 30.h3 Qq5 31.e4 Rd2 32.Qxd2 Qxd2 Qxc3 34.exf5 Bd4+ 33.Bc1 35.Kh2 Be5+ 36.Kg1 Qd4+ 37. Kh1 Ne7 38.fxg6 hxg6 39.Bg5 Nf5 40.Resigns

I would not have minded White playing this game out to mate, as I had an "open" version of the classic Queen-sac & smothered mate in mind with 40.Rb1 Ng6+

41.Kh7 Ne4+ (see diagram right) 42.Kh1 Nf7+ 43.Kg1 Nxh3+ (see diagram below)

44.Kh1 Qg1+ 45. Rxg1 Nf2#. (see diagram below)

The Cook County Department of Corrections team. outranked by an average of about 300 rating points against Lucent Chargers on boards 1-3, won all three boards!! That, plus a forfeit win on board 6 notched quite a team upset.

S. Jackson on board 2 scored the biggest upset for CCDOC.

Here's how:

White: S.Jackson (1132) Black: E. Radavicius (1647) **GIUOCO PIANO**

1. e4 e5 2. Nf3 Nc6 3. Bc4

Good opening choice. The rarer the better.

3...Bc5 4. c3 Nge7

A deviation from the usual 4...Nf6.

5. b4 Bb6

If 6.b5 (intending to win a pawn after 6... Na5 7. Nxe5) then 6... d5! 7.exd5 Na5 8.Nxe5 Nxc4 9. Nxc4 Qxd5 with the threat of 10...

Qxg2 or 10...Qxb5 recovering the pawn.

6.d4 exd4 7. cxd4 O-O 8. a3 a6

8....d5 equalizes.

9. d5 Nb8 10. d6!

This screws up Black's development

10...Ng6 11. **O-O Qf6** 12. Ra2

Diagram right.

12...cxd6??

This P inadvertently causes the Q to run out of room.

13. Bq5

Alert play by Black

13...Qe5 14. Nxe5 Nxe5

Down a Q for N, Black continued

the game. But Jackson held on to win the game. For his remarkable upset victory, Jackson garnered 43 big rating points

The rest of the game follows.

15. Bb3 h6 16. Be7 Re8 17. Bxd6 Nbc6 18. Rd2 Ng6 19. Nc3 Nce5 20. Nd5 Bd8 21. f4 Nc6 22. f5 Nge5 23. Qe1 Kh8 24. Qg3 b5 25. Nf4 Rg8 26. Ng6+ fxg6 27. Bxg8 Kxg8 28. fxg6 Bf6 29. Rxf6 gxf6 30. Rf2 Nd4 31. Bxe5 fxe5 32. Qxe5 Ne6 33. Qf6 1-0

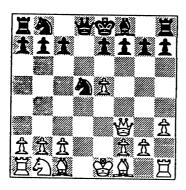

The Finishing Touch

by Ruben Reyes

The newest to grace **Charlie Ward's** TOP TEN list for the East Division is **Randy Byrnes**. Playing board 1 for **CTA**, Byrnes won all four of his games in 1994-95, and had no losses in also four games in '95-96 (1 win, 3 draws).

His intial rating was a high **2196**, from 5 wins, 1 draw!

In round 1 this year against CRT in the East division, he won a 15-mover against **Tony Jasaitis**, one of the Leagues strongest centurions. Let's view this game right after **7...dxe5** (diagram below). Notes by Tony Jasaitis

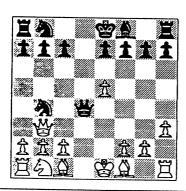

7...Nb4?!

(Jasaitis attaches a "?!" to this move, maybe because of the tactical complicatons the move provokes. - ed)

8. Qb3!

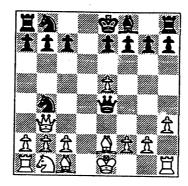

(The exclam Jasaits puts to this move possibly comes from the power of its simplicity and conservativeness as it defends c2 while at the same time threatens 9.a3 followed by 10. Qxb7 - ed)

8...Qd4!

(This provides a tactical response to the threat 9.a6 followed by 10. Qxb7 with the reply 9...Qe4+ defending the b-pawn - ed)

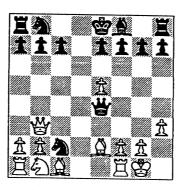

9. Be2 Qe4!

(Avoiding the fork 10.c3 while threatening both 10...Nxc2 and 10...Qxg2. - ed)

10. 0-0! Nxc2??

10...Qxe2 11.Qxb4 Qa6 =

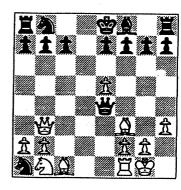

11. Bf3

I was counting on 11.Bd3 instead of Bf3 when 11...Nxa1 12.Bxe4 Nxb3 13.Bxb7 Nxc1 14.Rxc1 c6 15.Bxa8 Kd7 gives Black chances to win the bishop.

11...Nxa1

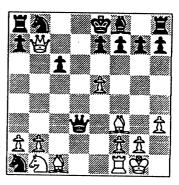

(See diagram top of next column)

12. Qb5+!

(This intermediate move that's a check is a killer as it enables White to keep material balance without having to trade Queens. All because White's superiority in development here turns into a winning advantage -- ed)

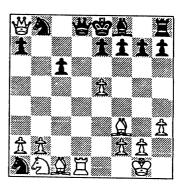

12... c6 13. Qxb7 Qd3

(13...Qf5 14.Qxa8 Qc8 brings no relief for Black after 15.Rd1 e6 16.Bxc6+ Qxc6 17.Qxb8+ Qc8 18.Qxc8+ Ke7 19.Qd8# -- ed)

14. Qxa8 Qd8 15. Rd1 1-0

Final position, Byrnes-Jasaitis

On any of Qc8, Qc7, Qb6, 16. Bxc6+

(See diagram next page)

16....Qxc6 17. Qxb8+

(See diagram below)

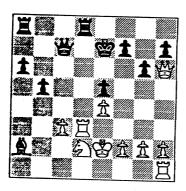

(It's mate in two:

17...Qc8 18. Qxc8# --ed)

Quite a nice finishing touch I may say - ed

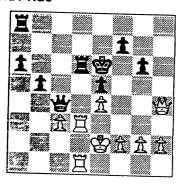

Sears' Mike Dorff (1561) scored a huge upset on board 2 in a Round 2 match vs. UOP. Here's how Dorff beat Ed Buerger (2147). Let's drop in after 23. Ke2 Rhd8

24. Qxh7 Bc4

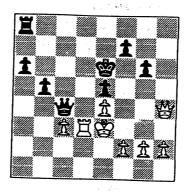

Or 24...Rxd3 25.Kxd3 Rd8+ 26.Ke2 Qxc3, 28 Qh4+.

25. Qh4+ Ke6 26. Nxc4 Qxc4 27. Rhd1 Rd6

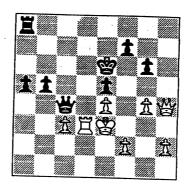

Black threatens 28...Rad8.

28. Ke3 Rxd3+ 29. Rxd3

Although Black's King is out in the middle, White doesn't have the capability to capitalize on such a situation..

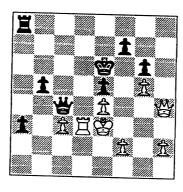

29...a5 30. g4

30.f4 would threaten 31.fxe5 and 32. Qf6++. But after 30... exf4+ 31.Qxf4 Black can attempt to reach g7 with 31 ...Ke7 32. Qe5+ Qe6

The text move does not appear to have a purpose.

30... a4 31. g5 a3

32. Qh3+

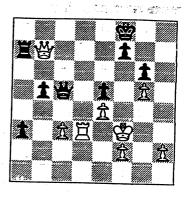

The point of White's last two moves now becomes clear. Black is prevented from escaping via f6.

32...Ke7 33. Qd7+ Kf8 34. Qb7

34...Qc5+

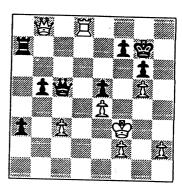

Black's reluctant to let go of his hold on the a-file with the R. His last move is a scheme to keep the R stationed on the a-file.

35. Kf3 Ra7

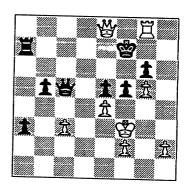

The point of Black's 34th move. Black gets to keep the R at the a-file while defending the rank a7-h7.

36. Qb8+ Kg7 37. Rd8

Suddenly, Black discovers that 38.Rg8+ Kh7 39. Rh8+ Kg7 40.Qg8 (or f8) is mate.

37...f5 38. Rg8+ Kf7 39. Qe8 mate

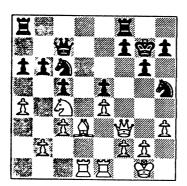

Final Position (Dorff-Buerger)

Games, more often than not, do not end in a spectacular fashion.

However, in a finish such as this one UOP's **Mike Stevanovic** had, it can consist of masterfully converting what would seem to many chessplayer as a small advantage into a win.

This is **M.Stevanovic** (2254) - R.Reyes (2366); 03/21/96.

Let's pick up the action after 19.Qxf3 Nh5 (diagram below)

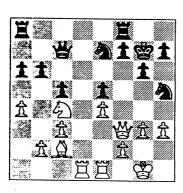

20. g3

Notice that Black's N's are now blocked from entering anywhere into White's territory? Except at a5 which would lead simply to doubled pawns there (...Na5; Nxa5 bxa5)

20...Ne7

This N has nowhere to go. White has control of all entry points.

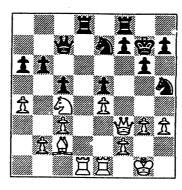

21. Bc2

This commencement of activities to grab hold of the d-file does not lead to control of the file as planned.

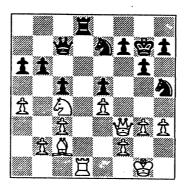

But the ramification of the start of this attempt to control the d-file only becomes apparent several moves later

22...Rad8

More or less forced. Black can't allow White to get a head start in gaining control of the d-file as that would mean the beginning of the end for Black.

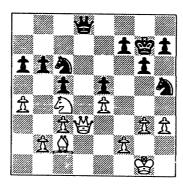

22. Rxd8 Rxd8 23. Rd1

At first glance, it would appear that mass exchanges would only lead to a draw.

But appearances can be deceiving.

24...Nc6 24. Rxd8 Qxd8 25, Qd3

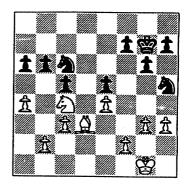

25...Qxd3

Again forced. Black can't let the White Q

alone in control of the d-file.

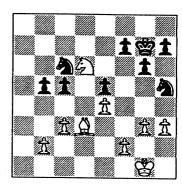

26. Bxd3

The point of White's 21st move: transposition into an ending where White's got two active pieces now in the Queen's wing against Black's lone N.

Transposition into the endgame via mass exchanges of major pieces on the d-file has left Black's N at h5 unable to help in defending the pawns in the Queen's wing.

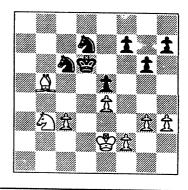

26....b5 27. axb5 axb5 28. Nd6

28...b4

Stevanovic pointed out after the game that 28....c5 is met by 29.Be2 Na7 30.Bxh4 gxh4, doubling Black's h-pawn

29. Nb7 29...bxc3 30. bxc3 Nf6 31. Nxc5 Kf8 32. Kf1 Ke7 33. Ke2 Kd6 34. Nb3 Nd7 35. Bb5 1-0
